Smart Spending

　It's important to be smart about money when you shop. Sometimes, people pick out too many

items. They don't have enough money to pay for everything. One way to make sure you have enough money is to estimate cost. Make a thoughtful guess about how much you will spend.

Try estimating while you shop. Bring paper and a pencil. Choose one item. Think about the price. You don't need to write down the exact price. You can **round up** or **round down**. Round up or round down the prices to find the total cost. Let's say you are going to the corner store with your father. You have $5.00. You want to buy a bottle of orange juice, you have bought orange juice before. You know it costs $1.67. Sixty-seven cents is more than 50 cents. Round up the cost to the nearest dollar. Your orange juice will cost about $2.00. Because you have $5.00, you can buy the orange juice. Let's pretend you see a yard sale on the way to the store. There is a jump rope that you want to buy for 75 cents. Will you have enough money for the jump rope and the orange juice, too? Estimate the total cost. Seventy-five cents is more than 50 cents. Round up to $1.00. You can buy the jump rope for about $1.00. The orange juice costs about $2.00. The total cost for both will be about $3.00. You can buy both items, and you will have money left over!

Rules: · **Round down** if a price ends with **less** than 50 cents.

· **Round up** if a price ends with 50 cents or more.

(   ) 1. You can guess how much money you will spend by _____.

A. shopping   B. paying   C. estimating   D. saving

(   ) 2. To estimate how much you are spending, _____ of your items.

A. add together the exact prices.   B. round up or round down the prices

C. don't worry about the prices   D. ask the shop assistant

(   ) 3. According to the passage, when you round up or round down the cost of $3.50 lemon juice, it costs _____.

A. $3.00   B. $3.50   C. $4.00   D. $4.50

B. 阅读下面几段新闻，按要求回答问题。

The Tokyo Olympics

The 2020 Tokyo Olympics were put on pause（暂停）because of the pandemic (流行性疾病), but are now scheduled for July 2021. It may not look like Olympics past. The IOC says it will be a "simpler, more restrained approach," But that won't stop us from indulging（沉迷）in the communal joy of pretending to know how gymnastics is scored.

6G

Now is the time to fess (坦白) up if you don't actually know what terms like 4G, 5G and 6G

actually mean. It refers to different generations (代) of technology standards for cellular（移动电话）networks. In other words, it's the level at which your cell phone, internet and lots of other telecommunications architecture（通信工程）perform. That's why lots of people were excited about 5G. Phone fast! Stream all the things! Less painful Zoom meetings! Well, things are going to get even faster and even better when more 5G networks pop up worldwide. And Japan and Korea are already working on 6G capabilities. This next generation will help improve things like teleworking and distance learning, as well as more futuristic pursuits（追赶）like holograms（全息图） and virtual and augmented reality（虚拟增强现实）.

NASA's Perseverance rover lands on Mars

　　Mars will get a new little inhabitant (居民) when NASA's Perseverance rover (漫游者) touches down in February. Like its charming rover predecessors（前任） in the Mars Exploration Program, Perseverance will no doubt have an entire Earth-bound （只在地球上的）fandom rooting it on. Is it because we like to anthropomorphize（拟人化） complex （复杂的）robotics , or because we secretly wish we, too, could be blasted off （发射升空）this Earth onto another planet?

（　　）4. According to the first paragraph , which one is NOT right?

　　A. The Tokyo Olympics was held in 2020.　　　　B. The Tokyo Olympics may be held in July, 2021.

　　C. The Tokyo Olympics will be a little different from before.　　D. The next Olympics will be held in Japan.

（　　）5. Which is true according to the second paragraph?
